LANGUAGES

English · French · Punjabi · Hindi · Spanish (Learning)

KEY SKILLS

Languages & Frameworks: Java, HTML/CSS/Bootstrap, JavaScript/React/TypeScript, C#, C++ , PHP (Laravel), Python

Database Technologies: MySQL, PostgreSQL, NoSQL, Oracle

Cloud & DevOps: Azure, Docker, CI/CD pipelines

Testing & Automation: JUnit, Jacoco, Postman

Other: .NET, Spring Boot, RESTful APIs, Linux, Agile, IntelliJ

PROJECTS

Noodle Star Project

November 2024 - February 2025

- Found a client in Montreal who owns a Chinese restaurant.
- Identified the client's need to create a web application for order processing, menu display, and other features.
- Currently designing and implementing a full stack web application for their specific needs from scratch in a team of 4 in multiple sprints.

Pet Clinic Project

September 2024 - October 2024

- An ongoing full stack web application for a veterinary clinic in which new features are added. We completed stories in sprints of 2 weeks using many languages including Java, JS and TSX.
- In an Agile team of 6 and collaborating with other teams with dedicated scrum masters organizing scrum meetings and product owners for each sprint.
- Successfully implemented a fully working inventory management system with my team.

Technologies: Jira | GitHub | Figma | Postman | Docker | Jacoco reports | MySQL | NoSQL | PostgreSQL | Spring Boot | Junit

Clothing Store Web App

January 2024 - May 2024

- A clothing store web application consisting of three microservices, an aggregator class, and an API-Gateway using RESTful APIs, HATEOAS, error handling, etc.
- Includes automated testing such as Controller Integration, Repository Integration, and Unit Tests.

Technologies: Postman | Docker | Jacoco reports | MySQL | NoSQL | PostgreSQL | Spring Boot | Junit

EDUCATION & CERTIFICATION

Champlain College St-Lambert | Computer Science Technology DEC

August 2022 - May 2025

Relevant courses: Object Oriented Programming with Java, User Experience/Web Interface Design, Web Programming and JS Libraries, Database Design with SQL, .NET Development, Java Web Programming, Web Services and Distributed Computing, Azure for SQL Developers with ASP.NET and MVC

Meta Front End Developer Certificate

August 2024 - Ongoing

École secondaire Antoine-Brossard

August 2017 - June 2022

High School Diploma - Honors Diploma

PROFESSIONAL EXPERIENCE

Costco Wholesale

June 2023 - Present

Customer service/Delivery order packer

- Worked at the cash as a team with coworkers packing carts with shopping items and verifying item count
- Greeting customers and talking to them about promotions
- Scanning, packing, and looking for items across the building and putting them into boxes for delivery
